REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Honorable Mayor and Members of the
Board of County Commissioners of
Miami-Dade County, Florida

Report on the Special-Purpose Financial Statements

We have audited the accompanying special-purpose statements of assets and liabilities and special-purpose statements of revenues and expenses of the Miami-Dade Aviation Department - Miami International Airport Facilities' Management and Operating Agreements for Public Parking, Fuel Farm, Shuttle Services, and Special Lounge (the "Facilities") as of and for the year ended September 30, 2021, and the related notes to the special-purpose financial statements, which collectively comprise the Facilities' special-purpose financial statements as listed in the table of contents.

Management's Responsibility for the Special-Purpose Financial Statements

Management is responsible for the preparation and fair presentation of these special-purpose financial statements in accordance with the provisions of the Facilities' Management and Operating Agreements and accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of special-purpose financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these special-purpose financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special-purpose financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the special-purpose financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the special-purpose financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the special-purpose financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

The accompanying special-purpose financial statements have been prepared for the purpose of complying with the Management and Operating Agreements between Miami-Dade County, Florida, and the Management Companies of the Miami International Airport Facilities as described in Note 2 to the special-purpose financial statements and are not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2, these special-purpose financial statements are intended to present the assets and liabilities, revenues and expenses of only the portion of Miami-Dade Aviation Department that are attributable to the transactions of the Facilities. They do not purport to, and do not, present fairly the financial position of Miami-Dade Aviation Department, as of September 30, 2021 and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the special-purpose financial statements referred to above present fairly, in all material respects, the assets and liabilities of the Facilities as of September 30, 2021, and the revenues and expenses for the year then ended, on the basis of accounting described in Note 2.

Substantial Doubt About the Special Lounge Facilities' Ability to Continue as a Going Concern

The accompanying special-purpose financial statements have been prepared assuming that the Special Lounge Facilities will continue as a going concern. As discussed in Note 8 to the special-purpose financial statements, the Aviation Department, effective January 1, 2022, has terminated the agreement with the Management Company for the operations of the Special Lounge Facilities. The Aviation Department's intent is to cease operations of the Special Lounge Facilities on January 1, 2022. The special-purpose financial statements do not include any adjustments that might result from the termination of the management contract. Our opinion is not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the special-purpose financial statements that collectively comprise the Facilities' special-purpose financial statements. The accompanying 2021 supplemental special-purpose statements of assets and liabilities and special-purpose statements of revenue and expenses on pages 13 through 20 are presented for purposes of additional analysis and are not a required part of the special-purpose financial statements.

The accompanying 2021 supplemental special-purpose statements of assets and liabilities and special-purpose statements of revenue and expenses on pages 13 through 20 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-

purpose financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the special-purpose financial statements or to the special-purpose financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the special-purpose financial statements taken as a whole.

The Totals (Memorandum Only) column in the special-purpose financial statements on pages 4 and 5 and the accompanying 2020 supplemental special-purpose statements of assets and liabilities and special-purpose statements of revenue and expenses on pages 13 through 20 are presented for purpose of additional analysis and are not a required part of the special-purpose financial statements. This information is the responsibility of management and has not been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2021 on our consideration of the Facilities' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Facilities' internal control over financial reporting and compliance.

Restriction of Use

This report was prepared solely for the information and use of the Honorable Mayor and Members of the Board of County Commissioners of Miami-Dade County, Florida and the management of the Miami International Airport Facilities and is not intended to be and should not be used by anyone other than these specified parties.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements

As of and for the Year Ended September 30, 2021

NOTE 1 – GENERAL

Miami-Dade County, Florida (the “County”) entered into Management and Operating Agreements (the “Agreements”) with third parties (the “Management Companies”) to operate, maintain and manage certain facilities (the “Facilities”) at Miami International Airport (the “Airport”) on behalf of the County. These Agreements provide for a fixed management fee and/or fees based on percentages of revenue and/or operating profits of the Facilities. While the County generally looks toward the Management Companies for recommendations relative to operation of the Facilities, the County does exercise complete budgetary control and establishes guidelines and goals for growth and performance. Such actions are taken within the rights reserved by the County under the Agreements to control all aspects of the businesses. These actions include such matters as pricing, staffing, employee benefits, operating hours, maintenance requirements, service levels, merchandise selections, personnel policies and marketing strategies. In the event the Management Companies do not perform in accordance with the standards established by the County, the County has the right to cancel such Agreements. The Management Companies do not act as general agents on behalf of the County and, therefore, cannot obligate or commit the County beyond the scope of what is required to run the day-to-day operations of the managed facilities, as established by the budgets approved by the County.

Each of the Facilities performs a distinct function for the County, which generates revenue, where applicable, to offset the cost of operations and supplement the County’s budget:

- Public Parking Facilities – Provides public parking at a nominal fee, available to the general public and taxis at the airport.
- Fuel Farm Facilities – Provides jet fuel storage and pumping services to airlines and fuel wholesalers. Also provides diesel and unleaded fuel for various airline and Airport vehicles.
- Shuttle Services Facilities – Provides shuttle transportation services, primarily to Airport and County employees, but also to members of the general public between the Airport terminal and certain parking areas.
- Special Lounge Facilities – Consists of Club F which provides a leisure environment for travelers, generally by subscription, to relax and enjoy any assortment of snacks and beverages as they await their flight.

The Management Companies for each of the Facilities are as follows:

<u>Facilities</u>	<u>Management Companies</u>
Public Parking	Airport Parking Associates (“APA”)
Fuel Farm	Allied Aviation Fueling of Miami, Inc. (“Allied”)
Shuttle	SP+ Transportation (SP+)
Special Lounge	Gideon Toal Management Services, Inc. (“GTMS”)

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 1 – GENERAL - Continued

The County amended certain agreements to extend terms and modify compensation to the Management Companies. See Note 3 for more details on the Agreements' termination dates and management fees effective as of September 30, 2021.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The special-purpose financial statements of the Facilities conform to accounting principles generally accepted in the United States of America, except for the exclusion of certain assets, liabilities and expenses. The special-purpose statements of assets and liabilities include only those assets and liabilities which are recorded in the books of the Facilities, as maintained by the Management Companies for the County pursuant to the Agreements. Assets not reflected therein include, but are not limited to, cash in revenue depository bank accounts, net assets, and capital assets. Liabilities not reflected therein relate primarily to other operating expenses paid directly by the County, debt, and certain accrued compensated absences. The special-purpose statements of revenue and expenses include only those expenses, which are incurred by the Facilities under the terms of the Agreements. Expenses not reflected therein include charges for certain depreciation and amortization in connection with capital assets located within the Facilities and interest expense, if any. The Facilities and their operations are included as part of the assets, liabilities and operations of Miami-Dade Aviation Department ("Aviation Department"). The special-purpose financial statements are presented on the accrual basis of accounting.

The accompanying special-purpose financial statements of the Facilities have been prepared on the full accrual basis of accounting, as prescribed by GASB, except where otherwise noted.

In accordance with provisions of the Agreements, the Facilities deposit, on a daily basis, gross receipts, as defined in the Agreements, into County-owned revenue depository bank accounts.

The Management Companies pay the operating expenses of the Facilities. The County reimburses the Management Companies for all approved reimbursable operating expenses, as defined in the Agreements.

Basis of Presentation

The accompanying special-purpose financial statements were prepared for the purpose of complying with the Agreements. Statements of cash flows are not required under the Agreements and have not been presented.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The amounts reflected in the total columns of the accompanying special-purpose financial statements are not comparable to a consolidation and are captioned “memorandum only” as they do not present the financial position or results of operations in conformity with accounting principles generally accepted in the United States of America, or the basis of accounting described above.

Cash

At September 30, 2021, cash represented amounts on hand and amounts held in demand deposit accounts with certain financial institutions that were in the name of the Facilities/Management Companies and/or the Aviation Department. At year-end and throughout the year, certain of the Facilities' cash bank balances were on deposit with one financial institution which, at times, exceeded the federally insured limits. Management of the Facilities believes such cash is not exposed to any significant credit risk of loss.

Accounts Receivable, Net

Accounts receivable, net are stated at the customers' outstanding balances, less any allowance for uncollectable accounts. Interest is not accrued on overdue accounts receivable. Sales on credit card and other third-party accounts unsettled at September 30, 2021 are also included in accounts receivable, net in the accompanying special-purpose statements of assets and liabilities of the Facilities.

Allowance for Uncollectible Accounts

Allowance for uncollectible accounts is estimated by account collection history. Accounts receivable, net are presented in the accompanying special-purpose financial statements net of allowance for uncollectible accounts, as follows:

Public Parking Facilities	\$ 57,238
Fuel Farm Facilities	\$ 16,851
Shuttle Services Facilities	\$ -
Special Lounge Facilities	\$ 72,828

Inventory

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method for the Special Lounge Facilities and the weighted-average method for the Fuel Farm Facilities and Shuttle Services Facilities.

Other Assets

Other assets are stated at amortized cost and are primarily comprised of advance payments made to the applicable Management Company for insurance coverage.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses represent amounts due to vendors and service providers for unpaid goods and services provided for the operations of the Facilities. Estimated accrued payroll expenses are also included. Accrued compensated absences are not included, except for the Fuel Farm Facilities.

Due To Management Company and Related Parties

Public Parking Facilities – this amount represents an advance from Standard Parking Systems – formerly Central Parking System of FL, Inc. (“CPS”), an affiliate of APA, for expenses paid by the parent company on behalf of the Facilities, which are reimbursable by the County, and accrued management fees due the Management Company. This advance is utilized by Public Parking to fund certain operating expenses prior to reimbursement of these amounts by the County. This amount is expected to be repaid to the Management Company at the end of the contract term.

Fuel Farm, Shuttle Services, and Special Lounge Facilities – this amount represents expenses paid by the parent companies on behalf of the Facilities, which are reimbursable by the County and accrued management fees due to the Management Companies.

Due To/From Aviation Department

Amounts due to the Aviation Department represent the cumulative excess/deficit of revenue over expenses and net receipts and disbursements between the Management Companies and the Aviation Department since inception of the Agreements.

Revenue Recognition

Revenue is recognized when earned and realizable. Most revenue transactions represent services rendered or sales of inventory and are recognized when the service or good is provided. Revenue recorded is presented net of taxes collected in escrow on behalf of governmental authorities and remitted by the Management Companies or Aviation Department.

Cost of Sales

Cost of sales are recognized when incurred at the time of sale and are comprised of the cost of products used in providing services to customers or the cost of products for resale and includes diesel and unleaded fuel offered for resale at the Fuel Farm.

Payroll and Fringe Benefits

Payroll and fringe benefits are recognized when incurred and include costs of salaries, wages, healthcare and retirement benefits, workers compensation and payroll taxes incurred as compensation to employees of the Facilities. This amount does not include accrued compensated absences due to employees, except for the Fuel Farm Facilities.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Selling, General, and Administrative Expenses

Selling, general, and administrative expenses (SG&A) are recognized when incurred and are primarily comprised of costs incurred for third-party service providers, professional fees, selling expenses, credit card fees, advertising and administrative costs, repairs and maintenance for the Facilities, certain capital asset purchases, and other miscellaneous operating expenses.

Management Fees

Management fees are recognized when incurred and represent costs incurred as compensation to the Management Companies for operating the Facilities. See Note 3. These are related party transactions.

Property, Plant, and Equipment & Related Costs

Pursuant to the Agreements, upon budget approval by the County, the Management Companies purchase equipment and vehicles needed by the Facilities. Such assets are the property of the County and are not recorded in the accompanying special-purpose statements of assets and liabilities of the Facilities. The Management Companies are reimbursed or advanced the cost of such assets by the County. These amounts are included in selling, general and administrative expense in the accompanying special-purpose statements of revenue and expenses.

The Management Companies also occasionally oversee capital improvements to the Facilities directed by the County. Such capital improvements are the property of the County and are not recorded in the accompanying special-purpose statements of assets and liabilities of the Facilities. The Management Companies are reimbursed or advanced the cost of such capital improvements by the County. When advanced, funds are included in cash in the accompanying special-purpose statements of assets and liabilities for the Facilities. The costs and related depreciation and amortization are not included in the accompanying special-purpose statements of revenue and expenses.

Income Taxes

The special-purpose statements of revenue and expenses are intended to show the results of operations for the Facilities managed under the Agreements on behalf of the County; accordingly, no provision has been made for income taxes as the County is a tax-exempt organization.

Use of Estimates

The preparation of the special-purpose financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the special-purpose financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 3 – MANAGEMENT AND OPERATING AGREEMENTS

Pursuant to the Agreements, a management fee is payable to the Management Companies monthly. The monthly management fees in effect for the fiscal year ended September 30, 2021, as defined in the Agreements, are as follows:

Management Company	Monthly Fixed Management Fee
APA	\$ 6,041 (\$12,500 for October 2020)
Allied	\$ 42,799
SP+	\$ 43,850
GTMS	\$ 7,500

Terms of Agreements

The Agreements cover periods below, with the County reserving the right to extend the Agreements for specific periods at the end of each contract year. Ordinance 95-138, Section 2-286a(9) extends any concession or management agreement related to the retail activities on a month-to-month basis for so long as may be needed to avoid disruption of concession services to passengers. Unless otherwise terminated by either party upon advanced written notice, the Agreements' expiration dates are as follows:

Management Companies	Expiration Date
APA	October 31, 2025
Allied Aviation	October 31, 2021 (year to year, thereafter, up to 3 additional years)
SP+	March 1, 2024 (optional continuance of a 5-year additional term)
GTMS	January 1, 2022

NOTE 4 – RELATED PARTY TRANSACTIONS

In addition to management fees incurred by the Facilities and paid to the Management Companies (Note 3), the Facilities entered into the following related party transactions during the year ended September 30, 2021:

Certain expenses included in the accompanying special-purpose statements of revenue and expenses of the Fuel Farm Facilities are paid to and are based upon amounts charged by the Management Company's parent company, Allied, for workers compensation, company-sponsored retirement, group health, life, general and other liability insurance. Insurance expense represents allocations from the Management Company's parent during fiscal year 2021 and was approximately \$527,000.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Notes to Special-Purpose Financial Statements - Continued

As of and for the Year Ended September 30, 2021

NOTE 4 – RELATED PARTY TRANSACTIONS - Continued

The Fuel Farm also leased operating space from the County for approximately \$20,000 during the year. Also included in the accompanying special-purpose statements of revenue and expenses of the Fuel Farm Facilities were fuel sales to itself in the amount of approximately \$37,000 and expense for leased equipment of approximately \$14,000. Additionally, Fuel Farm Facilities' benefits disbursements to employees are made by the parent company and reimbursed by the County as a reimbursable operating expense.

The Parking and Shuttle Services Facilities operating and payroll disbursements are made by their respective parent companies and reimbursed by the County as a reimbursable operating expense.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

The Facilities from time to time are involved in litigation incidental to the conduct of their business, and such matters can involve current and former Facilities' employees and contractors. In the opinion of management, the expected liability, from these claims, in excess of insurance coverage, if any, would not be material to the Facilities' financial position or results of operations.

NOTE 6 – ECONOMIC DEPENDENCY

The Fuel Farm Facilities receives approximately 77% of total revenues from two customers. One of the two customers represent approximately 42% of total revenues. Management of the Fuel Farm believes that the loss of any one or more of these customers would not have a material impact on its financial position or results of operations due to other customers fulfilling the fuel needs of the Airport.

NOTE 7 – RISK MANAGEMENT

The Facilities are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. As a result, the Facilities obtained general and property liabilities and worker's compensation coverage.

NOTE 8 – SUBSTANTIAL DOUBT ABOUT THE SPECIAL LOUNGE FACILITIES' ABILITY TO CONTINUE AS A GOING CONCERN

The accompanying special-purpose financial statements have been prepared assuming that the Special Lounge Facilities will continue as a going concern. The Aviation Department, notified the Management Company on December 1, 2021, that effective January 1, 2022, the Agreement will be terminated for the operations of the Special Lounge Facilities. The Aviation Department's intent is to cease operations on January 1, 2022. The special-purpose financial statements do not include any adjustments that might result from the termination of the management contract. Our opinion is not modified with respect to this matter.

NOTE 9 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 17, 2021, which is the date these special-purpose financial statements were available to be issued.

Report of Independent Certified Public Accountants
on Internal Control over Financial Reporting and
on Compliance and Other Matters Based on
an Audit of Special-Purpose Financial Statements
Performed in Accordance with
Government Auditing Standards

For the Year Ended September 30, 2021

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF SPECIAL-PURPOSE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the
Board of County Commissioners of
Miami-Dade County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the special-purpose statements of assets and liabilities and special-purpose statements of revenues and expenses of the Miami-Dade Aviation Department-Miami International Airport Facilities' Management and Operating Agreements for Public Parking, Fuel Farm, Shuttle Services and Special Lounge Facilities (the "Facilities") as of and for the year ended September 30, 2021, and the related notes to the special-purpose financial statements, which collectively comprise the Facilities' special-purpose financial statements, and have issued our report thereon dated December 17, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the special-purpose financial statements, we considered the Facilities' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the special-purpose financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Facilities' internal control. Accordingly, we do not express an opinion on the effectiveness of the Facilities' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's special-purpose financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Facilities' special-purpose financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of special-purpose financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Management Letter

For the Year Ended September 30, 2021

To the Honorable Mayor and Members of the
Board of County Commissioners of
Miami-Dade County, Florida

In planning and performing our audits of the special-purpose financial statements of Miami-Dade Aviation Department - Miami International Airport Facilities' Management and Operating Agreements for Public Parking, Fuel Farm, Shuttle Services and Special Lounge Facilities (the "Facilities") as of September 30, 2021, and the related special-purpose statements of revenues and expenses for the year then ended in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, we considered the Facilities' internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the special-purpose financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Facilities' internal control. Accordingly, we do not express an opinion on the effectiveness of the Facilities' internal control.

However, during our audit we became aware of deficiencies in internal control and as well as matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. We previously reported on the Facilities' internal control in our report dated December 17, 2021. This letter does not affect our report dated December 17, 2021 on the special-purpose financial statements of the Facilities'.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Facilities' personnel, and we will be pleased to discuss them in further detail at your convenience.

We wish to thank the finance teams from each of the Facilities and Miami-Dade County Aviation Department for their support and assistance during our audit.

This report was prepared solely for the information and use of the Honorable Mayor and Members of the Board of County Commissioners of Miami-Dade County, Florida and the management of the Facilities, and is not intended to be and should not be used by anyone other than these specified parties.

Fiscal Year 2021 Management Letter Recommendations

The following is a summary of current year recommendations for each of the Facilities and the status of prior year recommendations that were repeated in the current year, were not implemented, or were only partially implemented by the Facilities' during the current year. All prior year recommendations that have been fully implemented were not repeated in this section.

One of the basic elements of internal accounting control involves segregation of duties in such a manner in which the work of one employee is checked by others, and the responsibilities for custody of assets is not placed in the same employees that maintains the accounting records. Due to the Facilities' limited number of personnel, the segregation of duties is not always possible. However, management feels the risk of misstatement due to error or fraud is mitigated by the review of individual transactions and the monthly financial statements by MDAD personnel charged with oversight.

Public Parking Facilities

Current Year Recommendation: None.

Status of Prior Year Recommendation: 2020-1 Closing the Books

Condition: The Public Parking Facility annually in 2021 and 2020 collected approximately \$27.6 million and \$23.8 million, respectively, in revenue and expends approximately \$4.9 million and \$5.1 million for operating expenses, respectively. The contract between Miami-Dade County and the Management Company requires the books to be closed no later than October 15, annually. This includes reconciliation of all major accounts. We noted that in 2021 the accounts receivable was misstated and in 2020 the payroll accrual was understated and were corrected by post-closing adjustments.

Criteria: Account reconciliations for significant account balances or classes of transactions should be prepared and reviewed and approved in a timely manner.

Cause: Year-end procedures were not fully developed to include documented reconciliations for all accounts and transaction classes.

Effect: There is a risk that misstatements of the special-purpose financial statements may not be detected and corrected in a timely manner.

Recommendation: Management should reconcile and analyze significant account balances and transaction classes on a regular basis and those reconciliations are done in a timely manner. The reconciliations should be approved by an appropriate level of management and post-closing adjustments, if any, should be reviewed, approved and posted in a timely manner.

Facility's Response: APA will ensure all accounts are closed and reconciliations are documented appropriately by year-end.

MDAD's Response: We concur with the Facility's response.

Current Status: APA has implemented the recommendations and foresee no untimely material post-closing adjustments for FY 21-22.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Fiscal Year 2021 Management Letter Recommendations

Fuel Farm Facilities

Current Year Recommendation: 2021-1 Closing the Books

Condition: The Fuel Farm Facilities collected in 2021, approximately, \$13.7 million in revenue and expended approximately \$7.7 million. The contract between Miami-Dade County and the Management Company requires the books to be closed no later than the 15th business day of October annually. This includes reconciliation of all major accounts. As noted from previous years, there's an unreconciled amount of approximately \$25,000 that has been carrying over in the Due to Management Company account.

Criteria: Account reconciliations for significant account balances or classes of transactions should be prepared and reviewed and approved in a timely manner.

Cause: Year-end procedures were not fully developed to include documented reconciliations for all accounts and transaction classes including posting correcting adjustments.

Effect: There is a risk that misstatements of the special-purpose financial statements may not be detected and corrected in a timely manner.

Recommendation: Management should continue to reconcile and analyze significant account balances and transaction classes on a regular basis and differences, if any, should be researched and corrected. The reconciliations should be approved by an appropriate level of management and post-closing adjustments, if any, should be reviewed, approved and posted in a timely manner.

Facility's Response: We will ensure all accounts are closed and reconciliations are documented appropriately by year-end.

MDAD's Response: We concur with the Facilities' response.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Fiscal Year 2021 Management Letter Recommendations

Fuel Farm Facilities – Continued

Status of Prior Year Recommendation: 2019-2 Accounts Receivable Credit Balances

Condition: The Fuel Farm has unapplied credit balances in the account receivables trial balance of approximately \$37,000 (\$38,000 for 2020 and 2021), some of which dated back to 2004.

Criteria: Accounts receivable credit balances should be investigated and corrected by Allied Aviation in coordination with Miami-Dade Aviation Department.

Cause: Customer account balances were not reviewed, analyzed and adjusted annually by Miami-Dade Aviation Department and Allied Aviation.

Effect: There is a risk these credit balances are not properly applied to the respective customer invoices.

Recommendation: Allied Aviation in coordination with Miami-Dade Aviation Department should consider investigating and taking corrective action for these credit balances.

Facility's Response: We will keep reminding MDAD-Finance to review this matter in order to find a solution and to guide us in the process of getting it resolved.

MDAD's Response: We will continue to work on resolving the issue with the unapplied credit balance in the account receivables trial balance; in the amount of \$37,000; and monitor the situation going forward.

Current Status: Allied will continue to evaluate, with the assistance of MDAD, in order to resolve the unapplied credit balances.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Fiscal Year 2021 Management Letter Recommendations – Continued

Shuttle Services Facilities

Current Year Recommendation: None.

Status of Prior Year Recommendation: 2020 - 2 Inventory Valuation

Condition: Management was unable to provide evidence supporting inventory valuation for approximately \$42,000 in 2019 of certain parts inventory, with a balance of approximately \$25,000 and \$29,000 remaining in 2021 and 2020, respectively. Management has represented that the underlying records are not available.

Criteria: Proper accounting records should be maintained to support inventory valuation.

Cause: Shuttle Services Facility's staff was not properly trained on the utilization of the inventory management system.

Effect: There is a risk that misstatements of the special-purpose financial statements may not be detected and corrected in a timely manner.

Recommendation: Shuttle Services management should reevaluate the process of inventory valuation and ensure that proper accounting records are maintained to support the account balances.

Facility's Response: The referenced inventory items valued at approximately \$42,000, \$29,000 and \$25,000 for 2019, 2020 and 2021, respectively, were purchased by the prior management company and we do not have access to their records. The automated inventory system's report supports the values of the inventory items.

MDAD's Response: The inventory items valued approximately \$29,000 in 2020 were the remaining parts of the inventory items valued approximately \$42,000 and previously reported in 2019. The inventory items were purchased by the prior management company. The automated inventory system's report validates the value of the inventory items.

Current Status: SP Plus has implemented all recommendations included in the previous year's management letter comments.

Miami-Dade Aviation Department
Miami International Airport Facilities'
Management and Operating Agreements

Fiscal Year 2021 Management Letter Recommendations - Continued

Special Lounge Facilities

Current Year Recommendation: None.

Status of Prior Year Recommendations: 2019-4 Segregation of Duties

Condition: We noted that the accounting department consists of two persons. With limited personnel it is difficult to maintain a proper segregation of duties.

Criteria: One of the basic elements of internal accounting control involves segregation of duties in such a manner that the work of one employee is checked by others.

Cause: Due to the Facility's limited number of personnel, the segregation of duties is not always possible.

Effect: There is a risk that changes are not properly authorized or approved, therefore causing misstatements in the special-purpose financial statements that may not be detected and corrected in a timely manner.

Recommendation: Reevaluate staffing to ensure a proper segregation of duties.

Facility's Response: There are 2 employees in the accounting department, however, each financial statement is reviewed and approved by the CFO or the CEO each month.

MDAD's Response: We concur with the Facility's response.

Current Status: The extenuating circumstances due to the global pandemic resulted in continued limited personnel.
